OVERVIEW

I'm a full-stack engineer that focuses on the front-end. I love to build and rebuild until users reach the 'a-ha' moment. I'm looking for opportunities to challenge myself and expand my craft.

WORK EXPERIENCE

Zazzle 2013

Front-End Engineer

Maintaining and implementing marketing landing page and email campaigns. Implemented affiliate network tracking tool for all customer purchases.

Thinkful 2012-2013

Software Developer (Consultant)

Implemented site redesign and lead generation landing pages.

OTHER PROJECTS

DBConnect 2013

Designed, implemented, tested, and launched a location-based social networking site for Dev Bootcamp alumni. Built using Rails, PostgreSQL, Javascript, jQuery, Heroku, and Solr.

Readability for Emailbox 2013

Created an email sorting and management tool using Rails, Node.js, and the Emailbox API.

EDUCATION

Dev Bootcamp 2013

900 hours of focused, deliberate programming work across a full-stack of modern web technologies: Ruby on Rails, Javascript, jQuery, AJAX, HTML, CSS, PostgreSQL, and Git. Additional focus on effective pair programming and team collaboration, agile methodologies, and test driven development.
